CORE LEARNING TASK FOR MATHEMATICS

In Maths today we are going to make some pairs- a pair is just two things together. We wear a pair of socks every day. This will help us when we learn to count in twos.

WIDER CURRICULUM TASK- Science

I would like this learning to span over two weeks as I think there is a lot to do and think about. Work through the presentation and choose 1 habitat to talk and learn about.

The task to make a habitat can be completed using anything! Use your imagination and think about the animal that you are making it for.
